

## Rachel's IMPACT Story

This is Rachel's story, whose father was diagnosed with a brain tumor in March of 2010.

"He was diagnosed with a brain tumor in March 2010 we were originally told that there was no hope. The Chris Elliott Fund helped change that diagnosis for our family and told us about advanced treatment options at the Ben and Catherine Ivy Center for Advanced Brain Tumor Treatment.

My dad has always held my hand when I was sick or hurting. Now I hold his and so does the Chris Elliott Fund as he fights this terrible disease."
