

End Brain Cancer Initiative (EBCI) Announces Winner of National HOPE Award

Alyssa Gohra of Mechanicville, New York is the winning recipient of the 2023 EBCI National HOPE Award, a Disease Education, Awareness & Outreach Campaign

REDMOND, WA, USA, May 31, 2023/[EINPresswire.com/](https://www.einpresswire.com/) -- Alyssa Gohra of Mechanicville, New York is the winning recipient of the [2023 EBCI National HOPE Award](#), a Disease Education, Awareness & Outreach Campaign/Initiative.

Alyssa, 21, discovered she had a brain tumor in November 2022, and her brain surgery took place that December right before Christmas, an operation that lasted 8 hours. "Nobody can prepare you for what comes post-surgery," she wrote.

She learned her brain tumor was cancerous and she is fighting her disease with grace and resilience. "I knew one day I would feel better. I

“

I knew one day I would feel better. I knew my pain wouldn't last forever, the light was shining through more and more, each setback proved that. ”

— Alyssa Gohra

more, each setback proved that. This may have changed my life, but looking back I am so glad it gave me a tremendous amount of strength, brought me closer to my family, and made me look at life differently. This was my second chance at life.”

She also predicts "One day we will find a cure. I'm only 21 and I will never stop having HOPE."

EBCI CEO, President & Board Chair, Dellann Elliott Mydland, predicts Alyssa will make a lasting difference for others by sharing her story. "The [End Brain Cancer Initiative](#)¹ and I want to thank Alyssa so much for reaching out to us. You will make a tremendous difference and will inspire others who are fighting Glioblastoma." Alyssa says her mom thinks "everything was meant to be. As terrible as it can be, I do believe everything happens for a reason, even to just help one person. If anyone can feel better, that's what I want."

Alyssa's award was announced and presented at EBCI's "Know All Your Treatment Options" online Disease Education Meeting/Event last Friday. The National HOPE Award, a Disease Education, Awareness & Outreach Campaign/Initiative is made possible by EBCI's long time Presenting Sponsor for this Campaign/Initiative, Novocure. This effort is also supported by IMVAX, Whim Social, Great Purpose Productions and COX Media.

The idea behind this award is to present it to a patient that INSPIRES others as well as EBCI by the way that they are living their life with their disease and HOW they are helping others. Alyssa will serve as a volunteer spokesperson for EBCI and use her voice to help others coping with brain cancer.

The EndBrainCancer Initiative | Chris Elliott Fund is dedicated to ensuring that all patients diagnosed with brain cancer, a brain tumor, or metastatic disease to the brain have equal access to advanced diagnostics, treatments, specialists, and clinical trial participation. We believe that IMMEDIATE ACCESS to these options provides this patient community with the best HOPE for survival and sustained quality of life. We partner with industry, patients, researchers, advocacy groups, medical teams, hospital networks and others to educate patients and their caregivers so they can have empowered conversations with medical teams.

The End Brain Cancer Initiative (EBCI), formerly known as the Chris Elliott Fund, works to support and guide patients and their caregivers through their medical journey after a diagnosis of Brain Cancer, a Brain Tumor, or Metastatic Disease to the Brain.
