The End Brain Cancer Initiative Hosts Free GBM Patient/Caregiver Educational Webinar for Brain Cancer Awareness Month

In honor of Brain Cancer Awareness Month, the End Brain Cancer Initiative (EBCI) is hosting a free educational webinar for patients and caregivers on Friday, May 16, 2025 at 11 AM Pacific Time. The Know All Your Treatment Options (KAYTO) annual online event is designed specifically for members of the brain tumor, brain cancer, and metastasized brain tumor community to “DIRECTLY CONNECT” with top specialists, doctors, and researchers in the field. Attendees will hear about advanced and FDA approved treatment options, clinical trials, devices, diagnostics, and more.

The event is free to attend, but pre-registration is required. Registration is open at endbraincancer.org/know-all-your-treatment-options-2025/. Thank you to presenting sponsors Telix Pharmaceuticals and Novocure for making this free patient disease educational event possible.

This year’s keynote speakers are Dr. John de Groot and Dr. Javier Villanueva-Meyer from the

University of California, San Francisco (UCSF). The doctors will share updates and challenges in the diagnosis and management of Glioblastoma (GBM), as well as the role for advanced PET imaging and why it is important to GBM treatment.

About Telix Pharmaceuticals
Telix is a biopharmaceutical company focused on the development and commercialization of therapeutic and diagnostic radiopharmaceuticals and associated medical technologies. Telix is developing a portfolio of clinical and commercial stage products that aims to address significant unmet medical needs in oncology and rare diseases. Visit http://www.telixpharma.com/ for further information.

About Novocure
Novocure is a global oncology company working to extend survival in some of the most aggressive forms of cancer through the development and commercialization of its innovative therapy, Tumor Treating Fields. Novocure's commercialized products are approved in certain countries for the treatment of adult patients with glioblastoma, non-small cell lung cancer, malignant pleural mesothelioma and pleural mesothelioma. Novocure has several additional ongoing or completed clinical trials exploring the use of Tumor Treating Fields therapy in the treatment of glioblastoma, non-small cell lung cancer and pancreatic cancer. Visit https://www.novocure.com/ for further information.

The End Brain Cancer Initiative (EBCI) is a 501(c)3 non-profit patient advocacy organization focused on disease education, awareness, outreach, increasing patient access and improving Standard of Care.

Dr. John de Groot

Dr. Javier Villaneuva-Meyer

The End Brain Cancer Initiative, formerly known as the Chris Elliott Fund (CEF), is dedicated to ensuring that all patients diagnosed with brain cancer, a brain tumor, or metastatic disease to the brain have equal access to advanced diagnostics, treatments, specialists, and clinical trial participation. We believe that IMMEDIATE ACCESS to these options provides this patient community with the best HOPE for survival and sustained quality of life. We partner with industry, patients, researchers, advocacy groups, medical teams, hospital networks and others to educate patients and their caregivers so they can have empowered conversations with their medical teams. Learn more about the End Brain Cancer Initiative at EndBrainCancer.org.
