

Ashley Sumrall, MD, is a neuro-oncologist practicing at Levine Cancer Institute in Charlotte, North Carolina. She is the Section Chief for Neuro-Oncology. She is a clinical assistant professor of medicine and works with the internal medicine residency program at the Carolinas Medical Center. She is a clinical assistant professor of medicine in affiliation with University of North Carolina at Chapel Hill Charlotte campus. She is also the co-director of the Brain and Spine Tumor Clinic at Roper St. Francis Medical Center in Charleston, South Carolina. She is the recipient of the Levine Cancer Institute President's Award for 2015.

She is board-certified in internal medicine and medical oncology. Her clinical interests include neuro-oncology, oncology, and hematology. With an extensive background in clinical research, she has presented original research at multiple national meetings and has been published widely in peer-reviewed medical literature. For 2015, she won the Levine Cancer Institute's President's Award. She was also a 2015 finalist for the Excellence in Healthcare Awards by the Charlotte Business Journal.

She received her medical degree from University of Mississippi School of Medicine. She completed her internal medicine residency and a fellowship in hematology and oncology at the University of Mississippi Medical Center. She completed an additional fellowship in neuro-oncology at the Preston Robert Tisch Brain Tumor Center at Duke University Medical Center.

She is a member of the Society of Neuro-Oncology, the American Society of Clinical Oncology, and the American College of Physicians. She is also involved with the North Carolina Oncology Association. She has won numerous awards and grants from professional organizations, including the American Medical Association and the American Society of Clinical Oncology.
