

One step closer to a cure

PROCEEDS

Providing Needed Resources

The EndBrainCancer Initiative | Chris Elliott Funds receives over 7200 inquiries from brain tumor patients and their caregivers monthly. The 501 (c)(3) organization (Tax ID 26-2185614) has focused its needs on a formal base of operations and its "Direct Connect" call center, ensuring the right staff is in place to support the patient load, and continuing high touch educational and advocacy efforts, www.endbraincancer.org.

Supporting the Bellingham Brain Cancer Walk and Hannah's Vision

When you support the BBCW and Hannah's vision, you make a substantial impact on those who are diagnosed with brain tumors. 80% of brain tumor patients are not treated at a brain tumor institute and or a brain tumor specialist; often times not receiving clinical trials as first treatment. Gifts given to the Bellingham Brain Cancer Walk directly support the EndBrainCancer Initiative's patient navigator positions, resources needed at the call center, brain tumor disease education and awareness, and patient advocacy at the policy level.

Presented by

In loving memory of the late Hannah Dashiell

Our Vision

The Bellingham Brain Cancer Walk was the inspiration of Hannah Dashiell, whose grandfather Jerry Jerowski, died of brain cancer in 2007. Hannah did not get to see her dream to completion. In early January 2014, a tragic car accident took Hannah's life. Part of Hannah's vision for the Bellingham Walk is that it would become an annual event for the city of Bellingham.
